

APPROPRIATE BODY

We have been delighted to welcome new schools to our Appropriate Body service over the last half-term and we now support over 300 schools. Last half-term, we launched our first AB face-to-face training session which was attended by over 50 Induction Tutors. This will be a regular termly event to support schools with running the assessment programme for their ECTs. We also run bi-weekly drop in sessions for Induction Tutors at 8am on a Tuesday - please visit our website [here](#) for more details. This half-term, our ECTs will receive a progress review in December, so Induction Tutors will be busy organising formal observations and writing reports. We are also busy organising our team of Quality Assurance Officers so they can visit schools to find out about induction processes across our Teaching School Hub regions.

EARLY CAREER FRAMEWORK

This half-term we welcome James Schillemore to our Teaching School Hub leadership team as our ECF Lead. James will be busy organising regional training events for our Year 2 ECTs in Southampton and Portsmouth as well as local training events for Year 1 ECTs. This half-term we will also be launching a new resource to support our ECTs with their adaptive teaching.

OUR FACE-TO-FACE INDUCTION TUTOR TRAINING SESSION

NATIONAL PROFESSIONAL QUALIFICATIONS

Apply now for our Spring 2024 NPQ cohorts

This year we are delighted to be continuing our partnership with Education Development Trust and Best Practice Network to offer localised access to the full suite of the National Professional Qualifications (NPQs). Applications for our Spring 2024 cohorts are now open. Please [click here](#) for further information.

DfE NPQ Course Prospectus 2023/24

The National Professional Qualifications (NPQs) [course prospectus](#) is a digital resource, which details and highlights the key features of each NPQ available. Its designed specifically for potential participants to help decide which NPQ is right for them. It is a handy resource for professionals to use and reference, during development conversations.

Expansion to the reformed suite of NPQs

We are excited to share new additions to the NPQ programmes. From February 2024, primary teachers and leaders with responsibility for leading maths across a key stage or school, or those who want to have this responsibility can complete the NPQ in Leading Primary Mathematics. [Click here](#) to find out more. And from October 2024, the NPQ SENCOs will replace the current NASENCo. Read more about what this means for schools [here](#).

SCIENCE LEARNING PARTNERSHIP

We have had a busy start to the new academic year, building on the relationships developed last year to provide bespoke science support, as well as to run face to face and online CPD across the region. Our new webpage www.sciencehub.org.uk/dorset-hampshire is up and running, signposting the variety of CPD and support on offer from the SLP and STEM Learning.

We are excited to be supporting two new super-enthusiast partnerships in both Portsmouth and Hampshire, involving a large number of primary schools in these areas. These partnerships funded by STEM Learning aim to raise the profile of STEM in schools by providing support from STEM ambassadors, as well as providing access for teachers to science and computing CPD.

Look out for our new remote CPD package developed in collaboration with the east region SLPs, as well as the science technician and primary science conferences planned for February 2024.

SOLENT MATHS HUB

At the Solent Maths Hub we are really pleased that we've been able to extend the range of our programmes for 2023-2024. With maths specific subject knowledge, practice development and leadership opportunities across the phases on offer, we hope to hear from you soon.

Visit our website: Solent Maths Hub or contact us using: info@solentmathshub.org.uk

HISP ITT

We welcomed 35 trainees (5 primary and 30 secondary) to our teacher training programme in September, and they have settled into their home school placements well. A key highlight of their trainee so far has been an Intensive Training and Practice week where they spent four days in another school focussing on behaviour management. Hampshire SCITT will be closing in August 2024 and we will be offering teacher training via our new organisation [Inspiring Future Teachers - HISP Teacher Training](#). If you are interested in partnering with us please do get in touch.

THE MATERNITY TEACHER PATERNITY TEACHER PROJECT

Empowering group coaching for colleagues on parental leave - fully-funded for state school colleagues in Hampshire thanks to HISP.

Join The MTPT Project this December for the winter cohort of their Parental Leave group coaching programme. This highly supportive programme is aimed specifically at colleagues currently on a period of maternity, adoption or shared parental leave. Please [click here](#) to find out more.
